

Activator[®]

Recommended by leading surgeons, physicians and therapists, our evidence-based ACTIVATOR[®] Poles were designed by an occupational therapist & gerontologist specifically for rehab and long-term conditions. This unique patented design enhances strengthening, stability and off-loading with your safety in mind.

“ I immediately understood the benefits of the ACTIVATOR[®] poles as an alternative to canes, crutches and even walkers. The poles encourage an upright and symmetrical posture, rather than the forward lean of a walker or an asymmetrical lean from one cane. There is also an immediate reduction in lower extremity pain when weight bearing as well as improved balance and walking confidence. **Dolores Langford**, Physiotherapist
Quote from British Columbia Physical Therapy Association Magazine

Meet Mandy Shintani
internationally recognized OT & Gerontologist as she reviews many of the Activator[®] benefits for both pre- & post- surgery and beyond.

Why Top Health Professionals recommend Activator[®] designed by a therapist with unique features for rehabilitation

- 1/** Strapless Ergonomic CoreGrip for core strengthening and to reduce the risk of injury.
- 2/** Secure locking system with weight bearing capacity 90 kg (250 lb per pole).
- 3/** Anti-vibration features.
- 4/** Adjustable in length.
- 5/** Bell-shaped tips for stability.

Max User Weight:
ACTIVATOR/ACTIVATOR2
poles: 250/320 lb.
